

Gifted and Talented Certificate Endorsement

There is a critical need to prepare both regular and gifted resource teachers in the identification, the needs, and the methods of instructing gifted learners. It is *critical* that Kentucky schools have teachers proficient in raising and removing the ceiling of learning in the classroom. Murray State University has a history of strong commitment to preparing gifted teachers and the faculty are highly qualified in their area of expertise.

Furthermore, the mission of the Center for Gifted Studies has as their focus the promotion of excellence in the area of Gifted Education through the preparation and supervision of teachers and providing services to gifted students and their families.

Murray State University is pleased to announce web-based course offerings for Kentucky teachers wishing to earn a Gifted and Talented certificate endorsement.
